

Dear Opposing Counselors,

Please find enclosed a CD that has the files that were printed and submitted to the Supreme Court requesting an emergency Writ of Mandamus in the case now pending before the Eighth circuit Court. The petition mentions matters concerning limitations and domain names but asks only for an order that addresses the honor of ceasing to present nudes attributed to me.

I am sick of this case and do not wish to wait fifteen more days for the Response Brief as should now be extremely clear to each of you.

The domain names issue is important but the defamation issue causes an emergency situation. You can use this to begin preparing your reply brief to my Brief on the Merits of a Petition for Certiorari. The issues are included in this petition for your reference.

Sincerely,

Curtis Neeley
