**Motion for Federal Communications Commission Injunction**

Curtis J Neeley Jr., MFA enters this motion separately with supporting brief for compliance with Local Rule 7.2(e). This Preliminary Injunction Motion asks the Federal Communications Commission be ordered to treat what is currently called the “Internet” to prevent regulation and to allow pornography by “WIRE COMMUNICATIONS” as defined on page eight ¶(51) of the Communications Act of 1934 as telecommunications by wire communications and now be regulated exactly like television. This is explained concisely in a concurrently filed supporting brief and further supported by Docket 168.

Respectfully Submitted by Hand
