O R D E R

On this, the 9th day of December, 2010, the Court heard the presentations of the parties with regard to plaintiff's request for recusal (contained in Document #208). Plaintiff stated in open court that his request was based on dissatisfaction with rulings made by the Court in this case - which is not sufficient basis for recusal - and then withdrew the request. The Court, therefore, finds the request moot.

IT IS SO ORDERED.
