

Affidavit of Terrie Myers

Curtis Neeley was under my constant care and I helped Rachel Neeley oversee every detail of living needs for him. Rachel provided shelter and the required daily needed activities of life like maintaining personal hygiene, nourishment, and other things like a minor child would require. From when I first knew Curtis on Jan. 16 2007, he was his own guardian but his disabilities prevented him from doing the basic activities of life till later. On June 30th 2008 he was marginally able to survive on his own. Curtis still requires my daily aide to assist him with preparing meals, taking showers, changing catheters, shopping, and transportation etc.

Curtis' memory is severely reduced and it was not till around June 30, 2008 that I agreed with Rachel's belief that he could live more on his own. He does not survive completely on his own now and will probably never. I am aware that he was extremely troubled by his website domains being taken. His distress was made very well known but very many things that have had too much priority that prevented Curtis from considering acting till this time.

The above statements are true and correct to the best of my knowledge and belief.
