Welcome

If you are looking for a solution to get your inventory on-line and live, CIRS is the right tool for you. Curtis Internet Reservation Software is being used by both large property groups and small bed and breakfasts. Regardless of your size - CIRS can help deliver the best return on your property investment.

Curtis Internet Reservation Software has been refined and updated for over two years and is serving properties all across the United States. CIRS is full featured, customizable, adaptable, and stable.

If you are ready for live availability on your Internet site without GDS fees or additional franchise fees - CIRS is the answer.

The Curtis Internet Reservation System can integrate seamlessly with your current Internet site, while at the same time interfacing with third party reservation and directory portals. This means you get added exposure and sales while maintaining your own direct Internet distribution channel.
CIRS can handle password restricted viewership (i.e. wholesalers) and has internal revenue management tools as well as customer loyalty building functions.

Call, or e-mail today to schedule your test-drive.
Send us a request for proposal form or sign-up for CIRS online today!

- ***COMING SOON*** off-line Windows interface

Does your online reservation vendor provide all of these features? Why not? Curtis Internet Reservations Software features continue to expand and make inventory management, delivery, and control easier and more profitable. With hotel reservations being made on the Internet at a fast and furious pace - why not absorb the extra margins direct marketing will allow. CIRS helps you do that with flat-fee licenses that let you see results at the bottom line in record time. Ready to step up to CIRS? - [Drop us a line](#) and see what we can do for your property(s).

We need Internet design.

Our property group needs a cross platform Central Reservation System.

Please include any additional information or questions in the box below:

The Demo

Pricing for Curtis Internet Reservation Software is very competitive. Most properties save enough money in the first 6 months to more than pay for the cost of a one year license. License fees are based on the size of the property and the load on the server. Larger properties generally (though not always) put a larger load on the system. Small properties with low reservation handling loads are generally covered by our lower cost licensed while large properties using the system to run call centers pay more. One size does not fit all - but we will work with you to make sure we have a cost effective solution tailored to your properties needs and resource demands. Please fill out the form below to request a pricing proposal.
